OBJECTIVE

My wish is to obtain a position as a software engineering intern. I have a passion for learning and wish to join a talented team to which I can contribute and gain knowledge from. I have a strong work ethic and possess independent time management skills. I believe my attention to detail and artistic talents provide a foundation for a thriving career in Web Development.

TECHNICAL SKILLS

Programming Languages	**Ruby, Javascript, SQL, HTML, CSS**
Frameworks	**Rails, Bootstrap**
Libraries	**JQuery, React**
Databases	**PostgreSQL**
Application Program Interfaces	**RESTful API using web development pattern MVC**
Text Editors	**Atom, Bluefish**
Source Controls	**Github, Git**
Operating Systems	**OS X, Windows**

EXPERIENCE

ThoughtSTEM   December 2016-January 2017
San Diego, CA
Internship
Contributed to the ThoughtSTEM website using React and Node Package Manager. I was responsible for coming up with algorithms to help better sort important data by date. Also implemented multiple UI improvements. I participated in Code Reviews, Development meetings as well as Team meetings.

LEARN Academy   September 2016 - January 2017
San Diego, CA
Full Stack Web Development Bootcamp

Ruby on Rails, JavaScript, HTML & CSS, JQuery & Bootstrap. Git & Source control, Github, Code Reviews & Collaboration, API & Application Connections and a special emphasis on Pair Programming & other Problem Solving Techniques, RSpec testing.

LEARN is a hands on, intensive 40 hour a week, bootcamp-style school designed to help transform your interest in programming into a craftsman's toolbox full of new skills. In four months, the school pushed me to achieve more than I even anticipated. Learn provides hands-on access to the skills needed to get a solid start in a web development career.

Group Project
San Diego, CA
Landmarked!
   A Ruby on Rails application that allows the user to find, follow and upload interesting and exciting landmarks in their area. On this application I wrote Capybera tests, utilized gems such as devise and textacular, implemented the ability for users to show their favorite landmarks on the user's profile page. I was also responsible for the design of the Landmark logo, the sign in and the sign up pages.

Eureka! UTC   December 2012-December 2016
San Diego, CA
Server
This assisted me in strengthening my skills to engage with many personalities, thinking quickly, problem solving and drastically improved my multitasking ability.
Dedicated to positive guest relations, able to anticipate customer needs.
I have extensive knowledge of the food, beer and craft cocktails, ultimately assisting me in selling more product.
Successfully handle multiple tables simultaneously, great time management.
Deliver and present food & drinks in an upscale fashion.
Server Trainer
Train new employees to effectively interact with customers, provide a fine dining experience, that no detail is too small, recognize upselling opportunities, input data into POS system, execute an open service model.

SunSplash Swimwear   May 2012- November 2014
San Diego, CA
Sales Manager
This experience reflects my ability to work independently. After a few short months I was given the responsibility of carrying out all the duties of the store independently.
Duties were to open store, start up POS, check all internet orders and voicemails. I was responsible for calling suppliers and customers. Fax orders. Make bank deposits and ship merchandise. Construct creative merchandise displays to encourage foot traffic and ultimately more sales. Provide outstanding customer service and personal styling.
Close Store, balance register, run end of day summary report.

Summit Independent Living   July 2010- May 2012
Missoula, MT
Certified Nursing Assistant

This shows my capacity to work (engage) very closely with another individual.
In-home caregiving for a quadriplegic. My goal was to assist in fulfilling any and all activities of daily living. Duties included, but not limited to: Basic hygiene routines, grocery shopping, food prep and cooking, light cleaning, medication pickup, assist with doctor visits and scheduling appointments.

EDUCATION

San Diego Continuing Education	**Certified in Garment Tailoring**
University Of Montana College of Technology	**Pre-Nursing**
University Of Montana	**General Education**
Arlee High School	**High School Diploma**
